

Charter School Student Residence Report (DOE-SR)

Version 09.08.05

The purpose of this data collection is to gather student residence information on students enrolled in a Charter School for the current school year. Based on legislation and the rules of the State Board of Education, the **first** count of students will occur on **September 16, 2005**. The second count of students will occur on **December 1, 2005**.

Audience

This collection is required of Charter Schools only.

Instructions

The required data should be collected, combined into a file, and submitted to the Department of Education through the secured Application Center. The file may be of any of the formats contained in this document and must contain all the fields in the order described. In addition, the STN number must exist in the STN Lookup. The students reported on the DOE-SR will also be reported on the DOE-ME (Membership) for your school. Since these collections are due during the same collection period, it will be necessary that you submit the DOE-ME for all students, and then submit the DOE-SR for all students. Reviewing warnings and correcting errors on the DOE-ME before proceeding to the DOE-SR will reduce the number of errors and warnings on this collection. Additions to the DOE-ME will also require additions to the DOE-SR.

The **first required collection period** begins on **September 16, 2005** and will last until **September 30, 2005**, which is the **final** date for the first submission. The **second required collection period** will begin on **December 1, 2005** and last until **December 16, 2005**, which is the **final** date for submission. During this time you are required to submit the file to the Application Center, review the processing results of the data transfer, and review the reports in the Message Center for accuracy and keep a final copy on file. If there are any errors or inaccuracies you may correct the data and transmit the file again until the end of the collection period.

Charter School Student Residence Report Data Layout

Field Order	Fieldname Description	Length	Data Field Specification and Requirements	Notes
1 A	School Number	4	State Assigned School ID of the Charter School Required Field: YES	School building where the student is located
2 B	Student Test Number (STN)	9	Official Student Test Number (STN) assigned to student Required Field: YES	Must currently exist in the STN lookup
